

ENR | REGIONAL BEST PROJECTS

SUBMITTER INFORMATION

Name of Submitter:

Submitting Company:

- List the submitting company exactly how you want it to appear in ENR.

Submitting Company's Role:

Submitter Phone:

Submitter Email:

Submitter City:

Submitter State/Territory:

PROJECT DATA

Project Name:

- Please list the project name exactly how you want it to appear in ENR.

Project Category:

- Please select a single category in which your project will compete.

Project City:

Project State/Territory:

- If you do not see the correct state for your project, please review and confirm you are in the correct region.

Date of Groundbreaking:

- Please enter the month/year project construction began.

Completion Date (Select one option)

1. May 2025
2. June 2025
3. July 2025
4. August 2025
5. September 2025
6. October 2025
7. November 2025
8. December 2025
9. January 2026
10. February 2026
11. March 2026
12. April 2026
13. May 2026

- Select month/year of construction completion from the dropdown.
- Only projects substantially completed between **May 1, 2025** and **May 31, 2026** are eligible.
- Phased projects can be submitted as long as the phases were bid and built as separate contracts.

Project Construction Cost:

- Type construction cost in whole numbers, with commas and dollar signs. For example a \$10 million project would be entered as: \$10,000,000.

Project Cost Confidential?

1. Yes
2. No

- Select "Yes" if you prefer to keep the project cost confidential. It will be visible during judging, but not for publication.

Project Cost Notes (optional)

Please confirm that there were no construction-related deaths on the submitted project by checking this box.

- Any fatality related to the construction by any of the project team members will result in automatic disqualification.

PROJECT TEAM INFORMATION

- **Best Projects honors the entire project team, so this information helps us recognize the team's outstanding work in print and at the awards banquet, as well as to notify the team of the award.**

Below is a sample of how the final team list will be laid out in print (as space allows). There will be variation dependent on team composition:

OWNER: **Company A**
LEAD DESIGN FIRM: **Company B**
GENERAL CONTRACTOR/CM: **Company C**
CIVIL AND STRUCTURAL ENGINEER: **Company D**
MECHANICAL ENGINEER: **Company E**
ARCHITECTS: **Company F, Company G**
OWNER'S REP: **Company H**

Trade Subcontractors (up to 10)

Company I; Company J; Company K

***If you are unsure how a team or teams should be listed, please reach out to regional editors.**

Trade Subcontractors

Subcontractor List

- Please include up to 10 subcontractors that were most important to the project. Please do not list all subs.
- Please separate the subcontractor company names with semi-colons (Company A; Company B; Company C; etc...)

Would you like to highlight any of the above trade subcontractors as being particularly crucial to the success of the project? (optional)

1. Yes
2. No

(If Yes) Trade Subcontractor One

Trade Subcontractor One Name:

Consulting Firm Four Contact Name: (optional)

Consulting Firm Four Contact Email: (optional)

Consulting Firm Four Contact Phone: (optional)

JUDGING CRITERIA

Projects will be judged on the information you provide in response to the following questions.

- Be specific! Limit the use of broad marketing lingo and focus on specific examples of why your project is the best in the selected category.
- Relate your answers to the category in which you are entering. For example, if you are submitting in the Small Project category, make sure your responses address how your team maximized the outcome with a minimal budget.
- To provide the judges with the most compelling information on your project, you should involve the primary project team in crafting your responses, such as contractor, design firm and owner.

(1) Project Description

Describe the Project

- Describe the project and how it will be used. While this text does not directly affect the judging, it helps to provide an adequate overview and introduction to the project.

(2) Overcoming Challenges and Teamwork

Project Budget (choose one)

1. This Project Was Completed Below Budget
2. This Project Was Completed At Budget
3. This Project Was Completed Over Budget

Project Schedule (choose one)

1. This Project Was Completed Ahead of Schedule
2. This Project Was Completed On Schedule
3. This Project Was Completed Behind Schedule

Overcoming Challenges and Teamwork

- Describe any challenges or issues that the design and construction team faced, managed and overcame.
- Be specific about the problems and solutions, and describe how teamwork was used to accomplish the project goals. If the project was completed below the original budget and/or ahead of original schedule, how was that accomplished? If your project was delivered above the original budget or after the original delivery date, please explain if there were budget/schedule changes approved by the owner, or detail any mitigating circumstances that led to the outcome.

(3) Safety Program Description

- Please fill in the following safety-related information pertaining to only the project you are submitting.
- Do not provide company-wide statistics or include any numbers from projects other than the submitted project.
- Safety stats for work hours, incident rates, etc. should be inclusive of all contractors and subcontractors (except for entries in the 'specialty construction' category).

Safety Program Description

Describe any project-specific safety programs or strategies that show how the construction team went above and beyond baseline industry safety standards.

- How did you achieve the project’s safety goals?
- What training/safety programs were implemented to prevent injuries and assure a safe jobsite?
- If there were incidents, please briefly explain them. What did the team learn from the incidents?
- Include any unique safety programs, extenuating circumstances or additional statistics to show how your team went above and beyond industry standards to ensure a safe job site.

TIP: Entries with general boilerplate safety info tend to score lower than entries with specifics on the submitted project.

OSHA Recordable Incident Rate:

- **Include total project hours inclusive of subcontractors.**
- If you need to include text qualifiers or other explanations, please use the essay space.

Lost Time Accident Rate:

- **Include total project hours inclusive of subcontractors.**
- If you need to include text qualifiers or other explanations, please use the essay space.

Total Worker Hours on Job:

- **Include total project hours inclusive of subcontractors.**
- What were the total worker hours worked on this single project?

Other recordable cases (select one option):

1. Yes
 2. No
- Did any incidents occur beyond those noted above that required days away from work, hospitalizations, job transfers or other restrictions? If yes, please include an explanation in the essay space.

|| ENR Excellence in Safety Award ||

Check here if you want this project to be considered for the ENR Excellence in Safety Award.

(IF checked) Safety Issues Encountered and Achievements

- Expand upon responses provided in the 'Safety Program Description' field. Include detailed instances of safety issues/problems that your team encountered on the job site and specific examples how the project's safety program resolved those challenges.

(IF checked) Safety Testimonial One

{UPLOAD BUTTON}

(IF checked) Safety Testimonial Two (optional)

{UPLOAD BUTTON}

(4) Innovation & Contribution to the Industry/Community

Innovation & Contribution to the Industry/Community

- In what ways did this project innovate, or help elevate industry standards?

- Describe any unusual construction techniques, design elements, materials or new technology used for the project.
- How will this help the project benefit the client, community or construction industry?

|| ENR Excellence in Sustainability Award ||

Check if you would like this project to be considered for ENR's Excellence in Sustainability award.

- Only projects with exemplary sustainability practices that go above and beyond the industry norm will be considered for this special award.

Describe the Project's Sustainability Strategy

- Please provide additional details on the project's sustainability strategy, including how the design and construction went above and beyond to execute the sustainability goals. Include level of certification(s) achieved or being sought and specific details on results achieved.

(5) Design & Construction Quality

Design & Construction Quality

- Describe how the design fulfills the project's goals and satisfies end users.
- How did the contracting team then excel in terms of quality and craftsmanship in executing the design?
- Detail the ways the team exceeded expectations and achieve extraordinary results.

SUPPORTING PHOTOS AND DOCUMENTS

Please upload up to 12 photos of the submitted project.

- **DO NOT SUBMIT RENDERINGS AS PHOTOS.**
- Photographs can be a mix of completed project photos and progress photos that relate to the category to which you are submitting and that best show the judges the innovation and quality of your project.
- Photos that depict key aspects of your project narrative work best, with a caption indicating what the judges are seeing.
- The photo you place in spot #1 will be the first one the judges will see, so we recommend putting your best overall photo there.
- If you wish to submit schematics, floor plans or renderings, please do so in the 'optional document' field below.
- Photos should not include any text or framing.

- Applicants should ensure they have permission to copy and send photos to ENR for use without limitations. Any liability for copyright violations shall be borne solely by the applicant.
- Size limit is **25MB per photo**.
- Note: Before and After photos are required in the Renovation/Restoration category. Do not put the 'before' photo as photo 1 since that's the first photo the judges will see.

Supporting Document/Schematics (optional)

{UPLOAD BUTTON}

- **(SUGGESTED)** You may upload one supporting document or PDF that is no more than 5 pages. Judges often benefit from an elevation, site plan or other schematic. If that's not available, consider submitting a testimonial letter from the project's owner.

Final step, please review your entry before submitting.

- **Save + close** to save now and return later to finish or edit.
- **Preview** to review your entry before submitting.

- **Submit entry** when complete. After submitting you can view your entry but you cannot make edits.
