

Intermountain Contractor 2008

Top Specialty Contractors

www.intermountain.construction.com

Intermountain Contractor's 2008 Top Specialty Contractors ranking was compiled via a survey that was sent out to specialty contractor firms in Utah and Idaho. Every effort was made to contact each of the respective participating firms to ensure their revenue information is accurate. Contractors who did not disclose revenue information were excluded from the rankings, even if they obviously are one of the largest subs in the two-state Intermountain region. In future years, we encourage all specialty firms to participate in our annual survey.

In addition to our rankings, we are profiling six various specialty contractors, including both up-and-coming firms, as well as companies that have been around for many years and have established a strong presence in the region.
