
ENR Regional Editions

TOP YOUNG PROFESSIONALS

Each year, ENR's regional editions celebrate the excellence of young construction professionals. In early 2023, the Regional publications will highlight a select group of individuals under the age of 40 who represent the industry's top rising leaders by advancing their companies and industry, and by giving back to their communities. For this Top Young Professionals program, ENR's regional editions will be accepting nominations from all 50 states, Washington D.C., and Puerto Rico.

JUDGING CRITERIA

1. Experience

Describe the nominee's career experience. Be sure to include educational achievements and information about their current position.

Explain the nominee's professional background, and why he or she should be considered a top young industry professional. *

2. Career and Industry Leadership

How has the nominee strived to improve company processes or outcomes, and to contribute to overall industry improvement? How have they worked to improve their own skills and abilities? Include industry certifications, professional licensures or accreditations, as well as industry involvement.

Provide specific examples of the nominee's leadership in their current or recent position. *

3. Community Service

List the nominee's participation in local, state, national and international industry groups and community-based organizations. If possible, in addition to listing these groups, please explain the nominee's reason for choosing to become involved in these organizations. How do they maintain a work-life balance?

Provide information about the nominee's involvement with community organizations. *

4. Additional Information

Include any additional information that you feel is important for consideration. List awards, honors, publications or articles that indicate the nominee's service to their profession, industry or community. Be sure to include a list of landmark projects the individual has contributed to, if applicable.

Include additional information that may help illustrate the nominee's other accomplishments. *

PHOTOS

Photos of the nominee are required. One photo must be a high-resolution headshot (300 dpi or greater). Please also include at least one high-res (300 dpi or greater), uncompressed action shot. PDF, .JPG, or TIFF files work fine. Ideally this is a shot of the nominee in the field. The photo could also show them doing volunteer work or in a meeting—preferably it is not a posed shot. Ideally they are not looking straight at the camera but rather engaged in work or conversation. Please make it clear who the nominee is in the photo if other people are in the shot. Also, please include captions for each submitted photo to let us know what they are doing, where they are, what the project is, as well as any other relevant information. Let us know the appropriate credit for each photo as well.

Photo Size: While larger file sizes are accepted, we recommend you provide photos under 5MB to reduce load times for judges.
